Your Proposed Safety Audit Result is: **PASS**

Explanation of Scoring Methodology

Factor	Failed Questions		Performance Test Status	Total Points	Factor Status
	Critical	Acute			
1. General	0	0	—	0	PASS
2. Driver	0	0	—	0	PASS
3. Operations	0	0	—	0	PASS

Result: Carrier has adequate basic safety management controls in place.

NOTE: Carrier has the right to request a review of this determination if there are factual or procedural disputes.

HOW THE SA IS SCORED

FACTORS - The Federal Motor Carrier Safety and Federal Hazardous Material Regulations are categorized into six factors. Multiple questions address the various factors. The Part B Question & Answer Report lists the CFR section numbers related to each question.

CRITICAL/ACUTE - Questions are also defined as CRITICAL, ACUTE or neither depending on the significance of the underlying regulation. Questions are assigned a point value if they are incorrectly answered. Critical = 1 and Acute = 1.5. The point values are summed for each factor. Any factor with a point value of 3 or more is marked "FAILED".

OUT OF SERVICE (OOS) RATE - The Driver/Vehicle OOS rate is used in factor #4 as another question. If there have been more than three level 1, 2, or 6 North American Standard Inspections conducted over the past year, they will be summarized. If the summed OOS rate is over 34%, one additional point is assigned to that factor.

CRASH FACTOR - Carriers are defined as urban or non-urban in order to compensate for the higher crash risk of urban operations. Urban carriers are defined as those that operate within a 100 air-mile radius. The crash rate for a carrier is calculated as accidents per million miles traveled. Factor #6 is "FAILED" if the urban carrier crash rate exceeds 1.7 or the non-urban carrier crash rate exceeds 1.5.

OVERALL STATUS DETERMINATION - Any carrier with 3 or more "FAILED" factors is deemed to have failed the Safety Audit by having inadequate safety management controls in place to operate in the U.S.

Part B Requirements and/or Recommendations

1. Drivers may not have Commercial Driver Licenses (CDLs) from more than one state. Ensure that all drivers have only one current CDL that is not under suspension or revocation. Driver CDLs must also match the correct class of vehicle driven and have applicable endorsements for double/triple trailer, passenger, tank vehicle and/or hazardous material operation.
2. Review the circumstances under which a CDL is required. CDL and drug testing rules apply to both interstate and intrastate commerce.
3. Ensure that drivers provide a 10-year employment history on their employment application.
4. Ensure that all drivers are fully and properly qualified before operating in interstate commerce. Maintain a complete file as required for each driver, documenting the qualification process.
5. Maintain all required controlled substance testing records including yearly summaries, quarterly summaries, test information, test results, records of training etc., as required by 49 CFR Parts 40 and 382 of the FMCSR.
6. Use of radar detectors or similar devices on commercial vehicles is illegal. Do not require or permit drivers to use them. Take appropriate disciplinary action against drivers if they are using such devices.
7. Do not schedule or require drivers to make trips requiring them to exceed posted speed limits in order to complete the run within the hours of service limits.
8. Require all drivers to prepare complete and accurate records of duty status for each day, and to submit them within 13 days. Maintain all duty status records on file, with all supporting documents, for at least 6 months.
9. Ensure that all documents supporting records of duty status (such as toll, fuel repair and other on-the-road expense receipts, as well as invoices, bills of lading, dispatch records, etc.) are kept on file for at least 6 months.
10. Obtain from any driver used for the first time (or intermittently) a signed statement showing the total time on-duty during the preceding seven (7) days and the time at which the driver was last relieved from duty.
11. Toll receipts and other on-the-road expense receipts, invoices, bills of lading, dispatch records, and other "supporting document" must be kept on file for six (6) months. This requirement also applies to records generated by the use of owner-operators. You may keep legible photocopies in lieu of originals.
12. If you want some drivers to use the 100 air-mile radius exemption, make sure that the drivers meet all terms of the exemption, including being released from duty no more than 12 hours from when they report for duty. Logs must be prepared if a driver does not meet the 12 hour requirement.
13. Ensure that all drivers' records of duty status (logs) are accurate. Check them against "supporting documents" to verify accuracy. Prohibit falsification of logs by any driver. Review the rules on supporting documents. Take appropriate action against drivers who falsify logs.
14. Establish a systematic maintenance records program for all vehicles. Maintain a complete file for each subject vehicle, recording all repair, maintenance and inspection operations performed.
15. Keep all driver vehicle inspection reports, signed, certified, and reviewed as required on file for at least 90 days.
16. Ensure that the persons or entities that perform preventative maintenance inspections on your equipment are abiding by agreed time or mileage intervals. Ensure that records are kept of such periodic preventative maintenance inspections. Take corrective action, if schedules are not being adhered to.
17. Review with your drivers periodically the procedures for doing pre-trip and post-trip inspections. Ensure that safety defects reported by drivers on their Vehicle Inspection Reports (VIR) are repaired before the vehicle is re-dispatched. Require drivers to prepare Vehicle Inspection Reports on a daily basis. Keep them on file for 90 days.
18. This report contains citations of regulations that are deemed serious in nature and could result in penalties against your company and/or your drivers.

19. A complete Educational and Technical Assistance package entitled "A MOTOR CARRIER'S GUIDE TO IMPROVING HIGHWAY SAFETY" is available free on the FMCSA website to assist you in complying with the safety regulations. It contains many forms and documents useful for improving the safety of your operations. Check: www.fmcsa.dot.gov/factsfigs/eta/index.html.
20. Ensure that all drivers subject to pre-employment, random, reasonable cause, post accident, return to duty, and/or follow-up controlled substance testing are tested as required by 49 CFR Parts 40 and 382 of the FMCSR.
21. Establish a system to control passenger-carrying drivers' hours of service. Do not dispatch drivers who don't have adequate hours available to complete assigned trips legally. Do not allow drivers to exceed the 10, 15, and 60/70-hour limits.
22. For questions about DOT numbers or biennial updates: 800-832-5660 or 703-280-4001
For questions about licensing, authority or MC numbers: 202-366-9805
For questions about insurance: 202-385-2423
For household goods complaints: 888-DOT-SAFT (888-368-7238)
23. DRIVER FITNESS BASIC PROCESS BREAKDOWN: Qualification and Hiring Process

DESCRIPTION OF PROCESS BREAKDOWN

BASIC SPECIFIC RECOMMENDED REMEDIES

Implement Safety Improvement Practices: The following are recommended practices related to Qualification and Hiring.

- Query applicants, check with previous employers, and obtain necessary documents regarding previous violations, CDL, operational qualifications and training, as well as related background, medical conditions and driver behavior.
- Review and evaluate gaps in employment, frequent job changes, incomplete applications, within-company applications and re-assignments, operational limitations (e.g. LCV, HAZMAT), physical impairments, and controlled substances and alcohol involvement.
- Ensure Moving Violation Records (MVR) for all prospective drivers are reviewed as part of the hiring process.

Passenger Carriers:

- Check the MVR to ensure that driver has proper class of license, and proper "P" or "S" endorsement, and if applicable endorsement on license has specific restriction, such as an air brake restriction.

Hazmat Carriers:

- Ensure that drivers can meet physical requirements and that they possess the personality traits necessary to withstand additional stress associated with multiple HAZMAT transportation responsibilities.
- Limit assignments of flammable hauls to non-smokers.

Seek Out Resources:

- You are encouraged to review your company's record at the following website:
[HTTP://AI.FMCSA.DOT.GOV/CSI](http://AI.FMCSA.DOT.GOV/CSI). You will need to use your PIN Number that has been provided by the FMCSA. This website contains helpful safety resources. Please refer to the following resource numbers in the "Guidance" Section of the CSI web page that connects you with the reference materials in this website.
 - o Resource Number:
- Contact industry associations to get resources and ideas on safety improvement practices from other carriers in the industry.

24. Ensure that all vehicles are properly marked with your name or trade name and U.S. DOT number. If your vehicles are also periodically operating for other carriers, they must be marked with that carrier's name and U.S. DOT#.
25. Provide pre-trip safety information to motorcoach passengers. For information about the Basic Plan for Motorcoach Passenger Safety Awareness that was published by the Federal Motor Carrier Safety Administration, go to the Agency's Web site at:
<http://www.fmcsa.dot.gov/about/outreach/bus/bus-safety-awareness-plan.htm>
